SMART ENERGY
FOR A GREENER FUTURE

CAM CONSULTING

ABOUT CAM

Since the foundation of our company, we have been striving to foster and facilitate the economic transformation in an environmentally-friendly manner. Environmental sustainability is not just an empty phrase for us, not just a dream that is impossible to achieve. It is our goal. And all the work we do revolves around this goal because we believe it is something worth fighting for.

We provide complex solutions in the field of energy efficiency, renewable energy and electric mobility. We continuously expand our profile considering global trends and innovative technologies.

Our core activities consist of strategic planning, project management, engineering activities and education. We value highly our clients who share our vision and commitment. We work with our partners, both businesses and public entities, for a smart and green future.
